

Environmental Policy

It is Camida's policy to ensure, in so far as is reasonably practicable, that the procurement, storage and distribution of chemicals, does not in any way constitute a hazard to the environment.

In this regard, Camida considers no aspect of its business as being of greater importance than the preservation of the environment. Towards implementation of this policy Camida emphasised the following;

- Commitment – Camida is committed to complying with all relevant laws, regulations and codes of practice towards implementing this policy.
- Responsibility - Management at all levels in the Company have a direct responsibility of ensuring the upkeep of the environmental policy.
- Assessment – Assessing the environmental impacts of our operations, seeking to reduce these impacts and improving our resource efficiency through reduction of energy, water use and waste.
- Information & Training – Promoting environmental and energy awareness to our employees through participation and training and working with our customers to make more environmentally sensitive choices.
- Continuous Improvement - This environmental policy will be reviewed and updated on a regular basis to demonstrate continuous improvement and commitment to the protection of the environment.
